Bryan Tejada

Atlanta, GA 30360   **404.990.1671**   bryanenidtejada@gmail.com

Profile

Solutions seeker individual with plenty experience on developing/deploying and supporting applications.

Experience

Ivbaze Tech Development, Atlanta, GA   Jan 2018 – Present
Full Stack JavaScript Developer
Collaborate with engineers to create technical designs, develop, test, and solve complex problems that drive the solution from initial concept to production. Contribute to the automated build, deploy, and test processes for each solution. I was responsible for both front and back end development. I was responsible for website updates, fixes, and new items to be placed on the website through the usage of React.js (Using TypeScript), MongoDB, Express.js, and Node.js. Work with a wide range of systems and technologies to solve problems from end-to-end. Conduct research on new and exciting technologies that help to progress of products and platforms.

MORADATA, Atlanta, GA   June 2015 – Jan 2018
JavaScript Developer / DevOps Engineer
Design functional components and evolve a JavaScript-based cloud platform that includes web application, services/API tier, and data access tier. We used a collection of technologies for our underlying structures as the two projects were built differently. There, my knowledge of HTML, CSS and JavaScript expanded, while I gained experience using some of the best modern front-end frameworks such as React.js; Mobile Development, React Native; Desktop Application, Electron.js; NoSQL Databases, MongoDB; Reinforced my knowledge in Node.js, NPM; Hosting Services, HEROKU, DIGITAL OCEAN, AWS; DevOps, Docker, Jenkins, using basic Linux. I have worked with project managers to produce design documents and functional specifications. Delivers proof of concept/pilot to demonstrate applications and implemented custom integration with the customer's enterprise systems and provided production support as level 3.

Technologies

Programming Languages Node.js (JavaScript) / Python / Dart (Google)
Front End React and React Native (Mobile Apps) / Redux / Electron (Desktop Apps) / TypeScript / Vue.js
Back End Express.JS / Template Engines (EJS, Handlebars) JWT, Socket.io
Databases MongoDB / PostgreSQL / Firebase
DevOps-Tools AWS / DOCKER / NGINX / Digital Ocean / HEROKU / Linux / GitHub / Git / Jenkins

Skills

- ·   Bilingual *English Spanish. Highly dependable; capable of working with tight deadlines.
- ·   Team player with excellent interpersonal and organizational skills. Able to communicate effectively.
- ·   Comfort dealing with ambiguity in an environment where we build the plane as we fly it.
- ·   Sense of ownership - to own and solve problems from end-to-end.
- ·   Experience with technology stacks, micro-services architectures and libraries and frameworks
- ·   High proficiency with Prototyping/Design programs such as Illustrator, Figma and Adobe XD

Education - Certifications

Georgia State University. Atlanta, Georgia
Associate of Computer Science (Graduation March 2021)

JavaScript / jQuery Course
SoloLearn, Pleasanton, CA
